GURUJI SWAMI SHREE YOGI SATYAM

Kriyayoga Science

False concepts of devotion and an illusionary imagination about God are the root causes of all problems of life: personal, familial, national, global, and universal.

Kriyayoga meditation is non-sectarian, and the easiest, fastest and the most scientific, time-tested technique. It brings the realization of Truth about God, devotion in God, religion, and overall it raises the intelligence quickly when practiced with complete joy, patience and devotion.

Taramataji
DR ZENA BEDESSEE MD, CCFP

Taramataji is a licensed Ontario family physician and life-time practitioner of Kriyayoga Meditation, which was brought to the West for the first time by

Paramahansa Yogananda. For the past 15 years, she has studied under Swami Shree Yogi Satyam, and has since dedicated her life to the practice, teachings & worldwide humanitarian work involved with Kriyayoga as taught by Swami Shree Yogi Satyam. Taramataji is the current president of Yog Fellowship Temple, the major North American centre for Kriyayoga in Kitchener, Ontario, Canada, and visits India twice annually to help the spread of the Kriyayoga science.

Many medical doctors, engineers, professors, and people from all walks of life have demonstrated the complete cure of physical and mental illnesses in short periods of time, such as malignant breast cancer, colon cancer, diabetes, high blood pressure, osteoporosis, fibromyalgia, psoriasis, obesity, bronchial asthma, depression, and more.

For the first time, you will realize that the science of Kriyayoga is the complete education of all kinds which includes everything of the past, present, and future of all creations. ☸

Pre-register for a single day, or for the full retreat!
